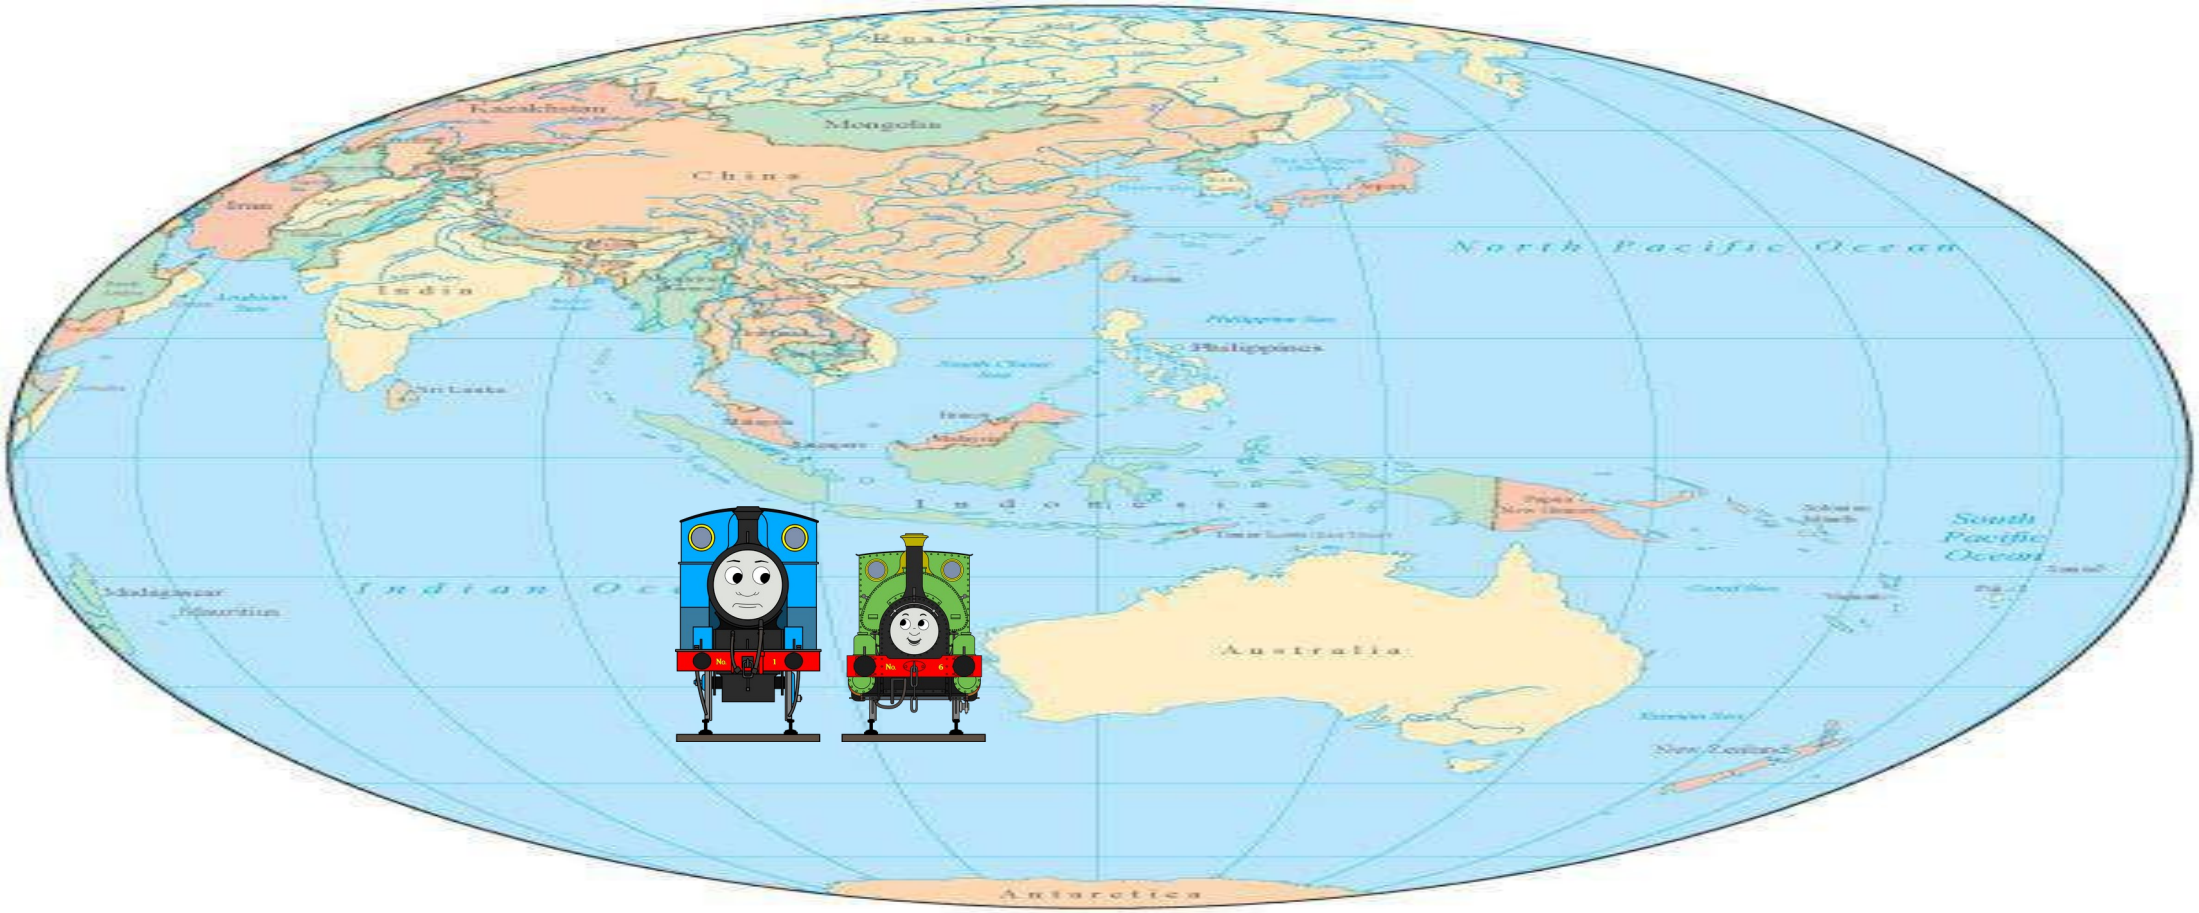
Percy and Thomas go to Australia

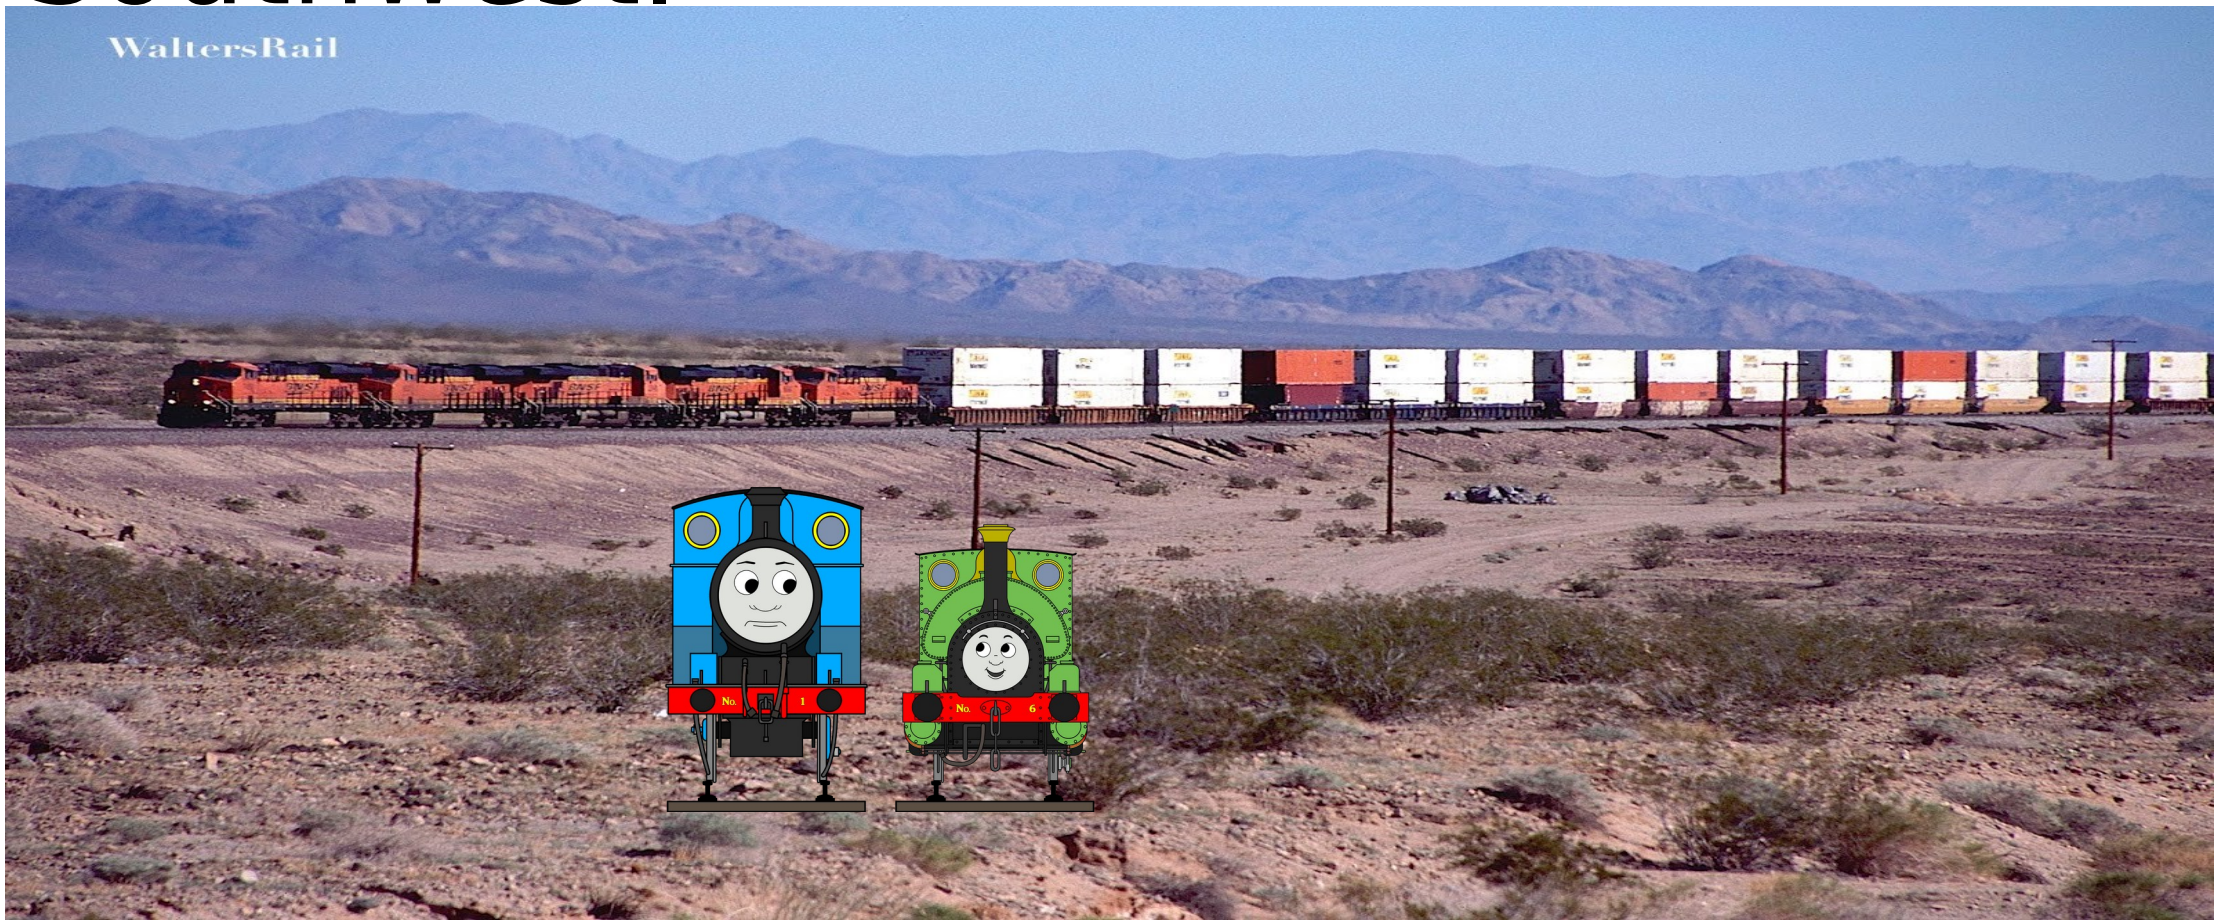
Percy and Thomas are going down under.



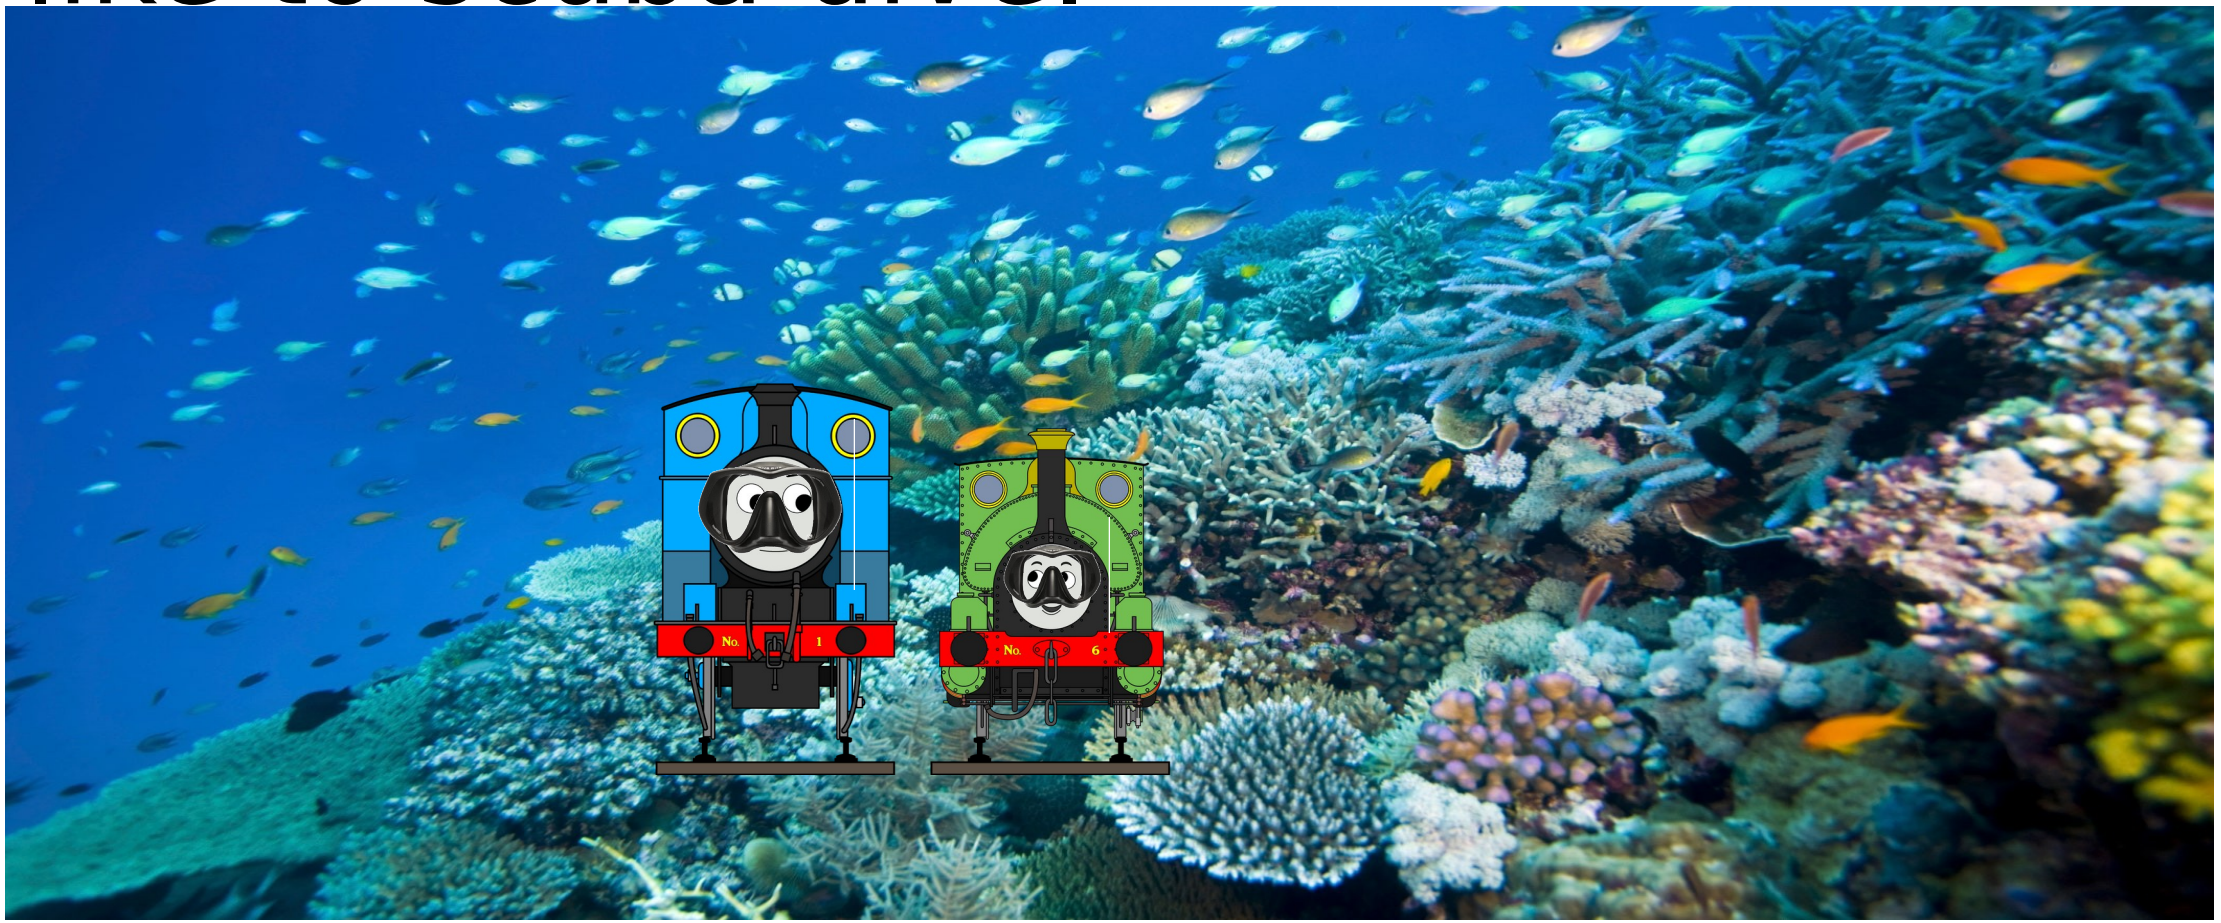
Percy and Thomas went to go visit kangaroos in the Outback!

The Outback is like the American Southwest.

The Australian Outback reminds Thomas and Percy of the American Southwest.

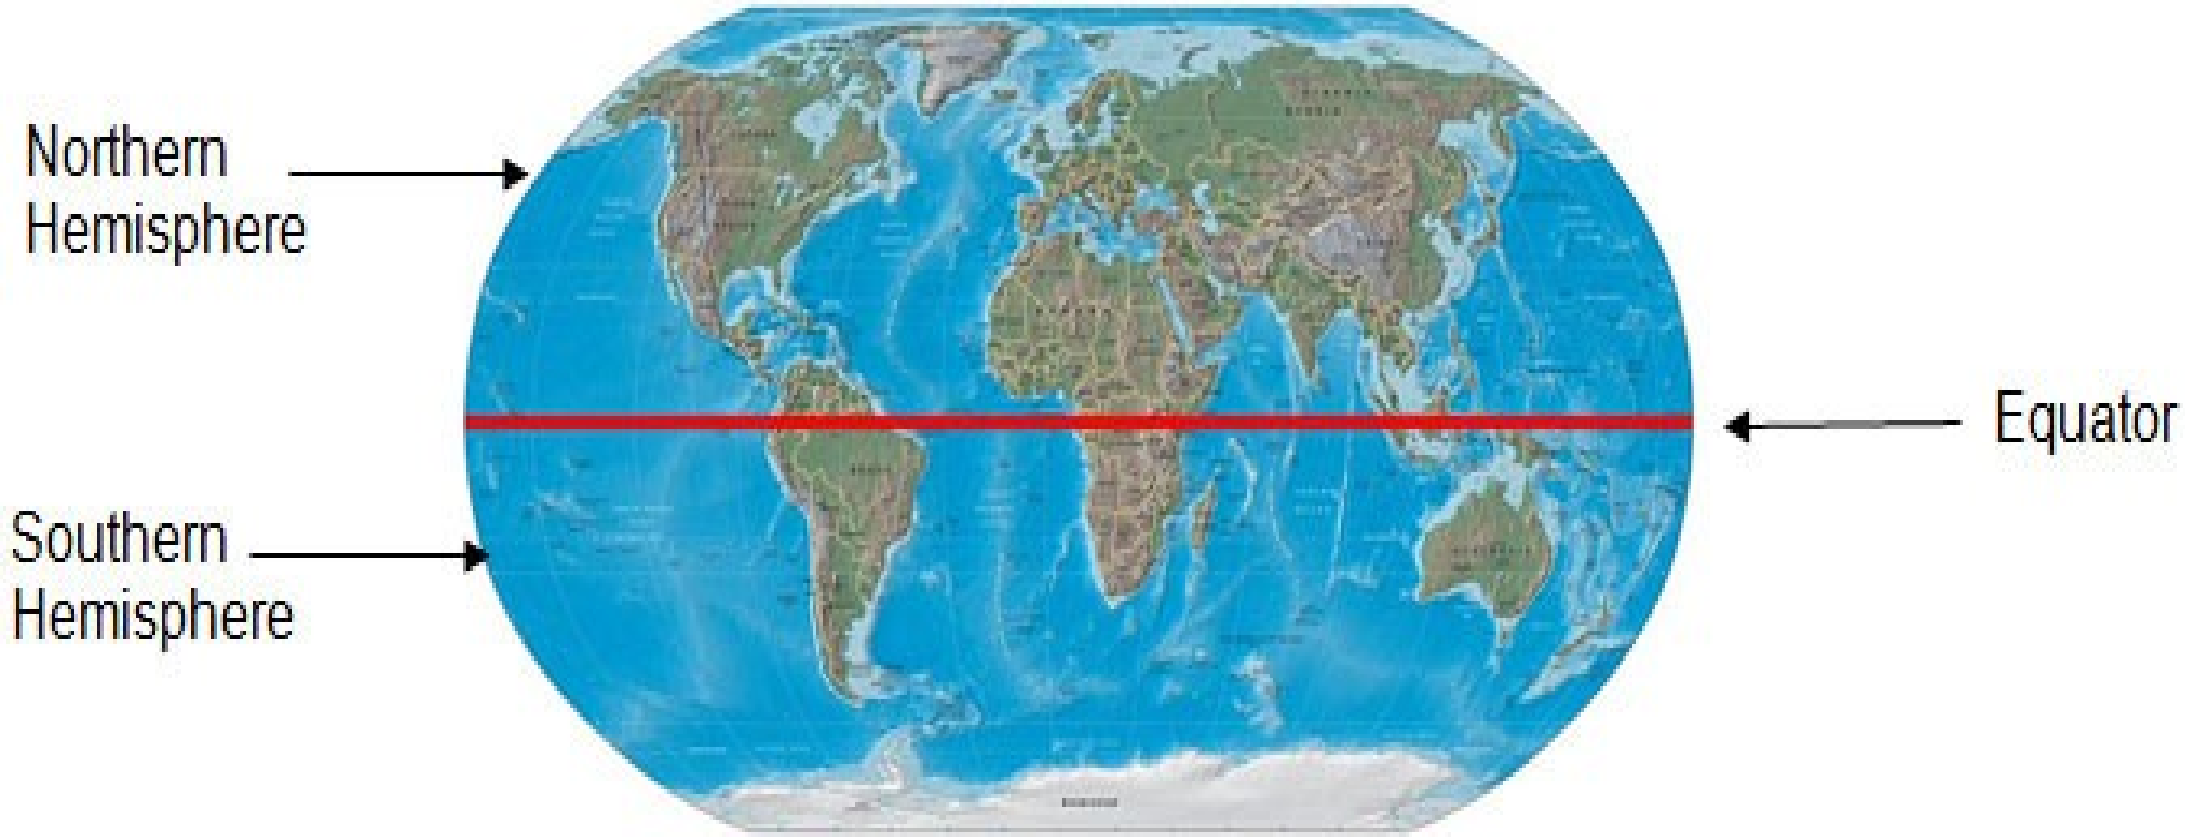


Australia also has the largest coral reef in the world. Thomas and Percy like to scuba dive.

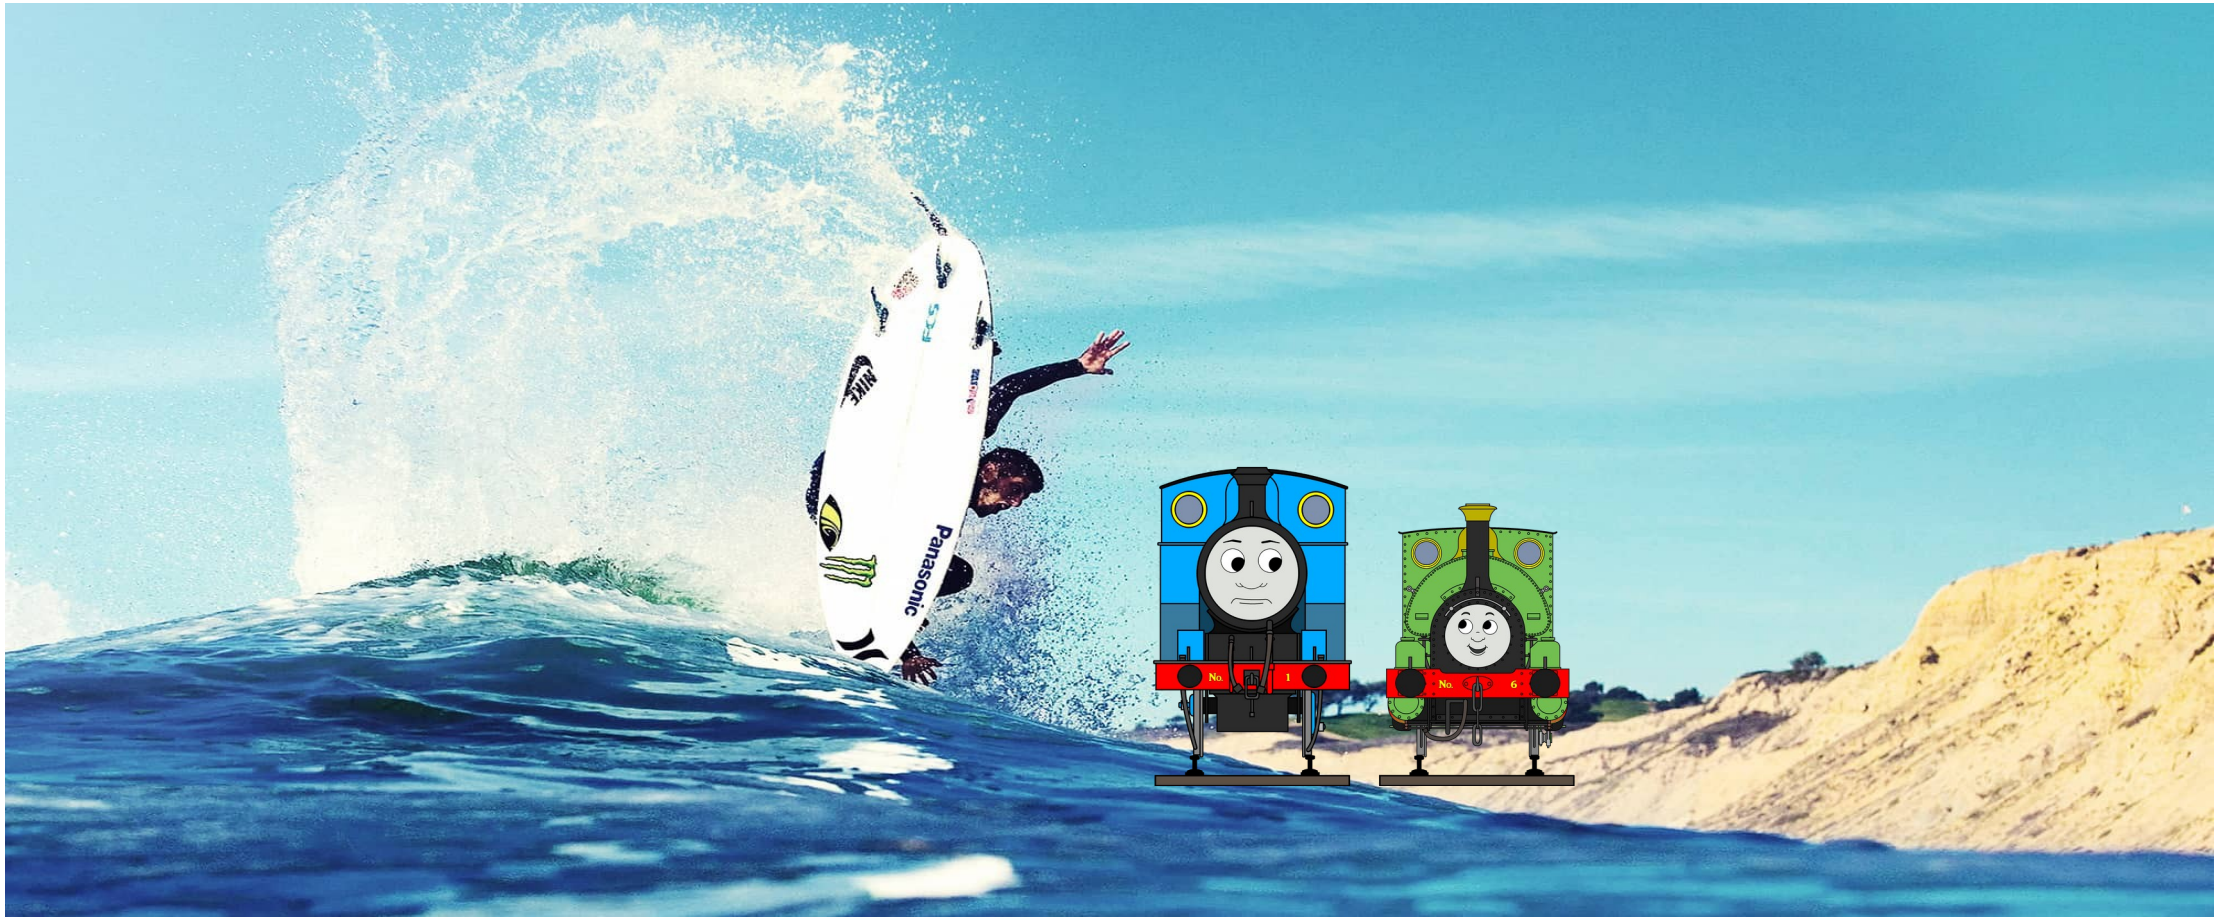


Australia is located in the Southern Hemisphere.

Countries in the Southern Hemisphere are below the Equator.



Australia has great surfing! Thomas and Percy are at the beach.



Australia is also dangerous. It has great white sharks and saltwater crocodiles!

Australia also has animals that are found no where else in the world like Koala bears, Kangaroos, Duckbill Platypus.

Australia has the largest number of species of marsupials.

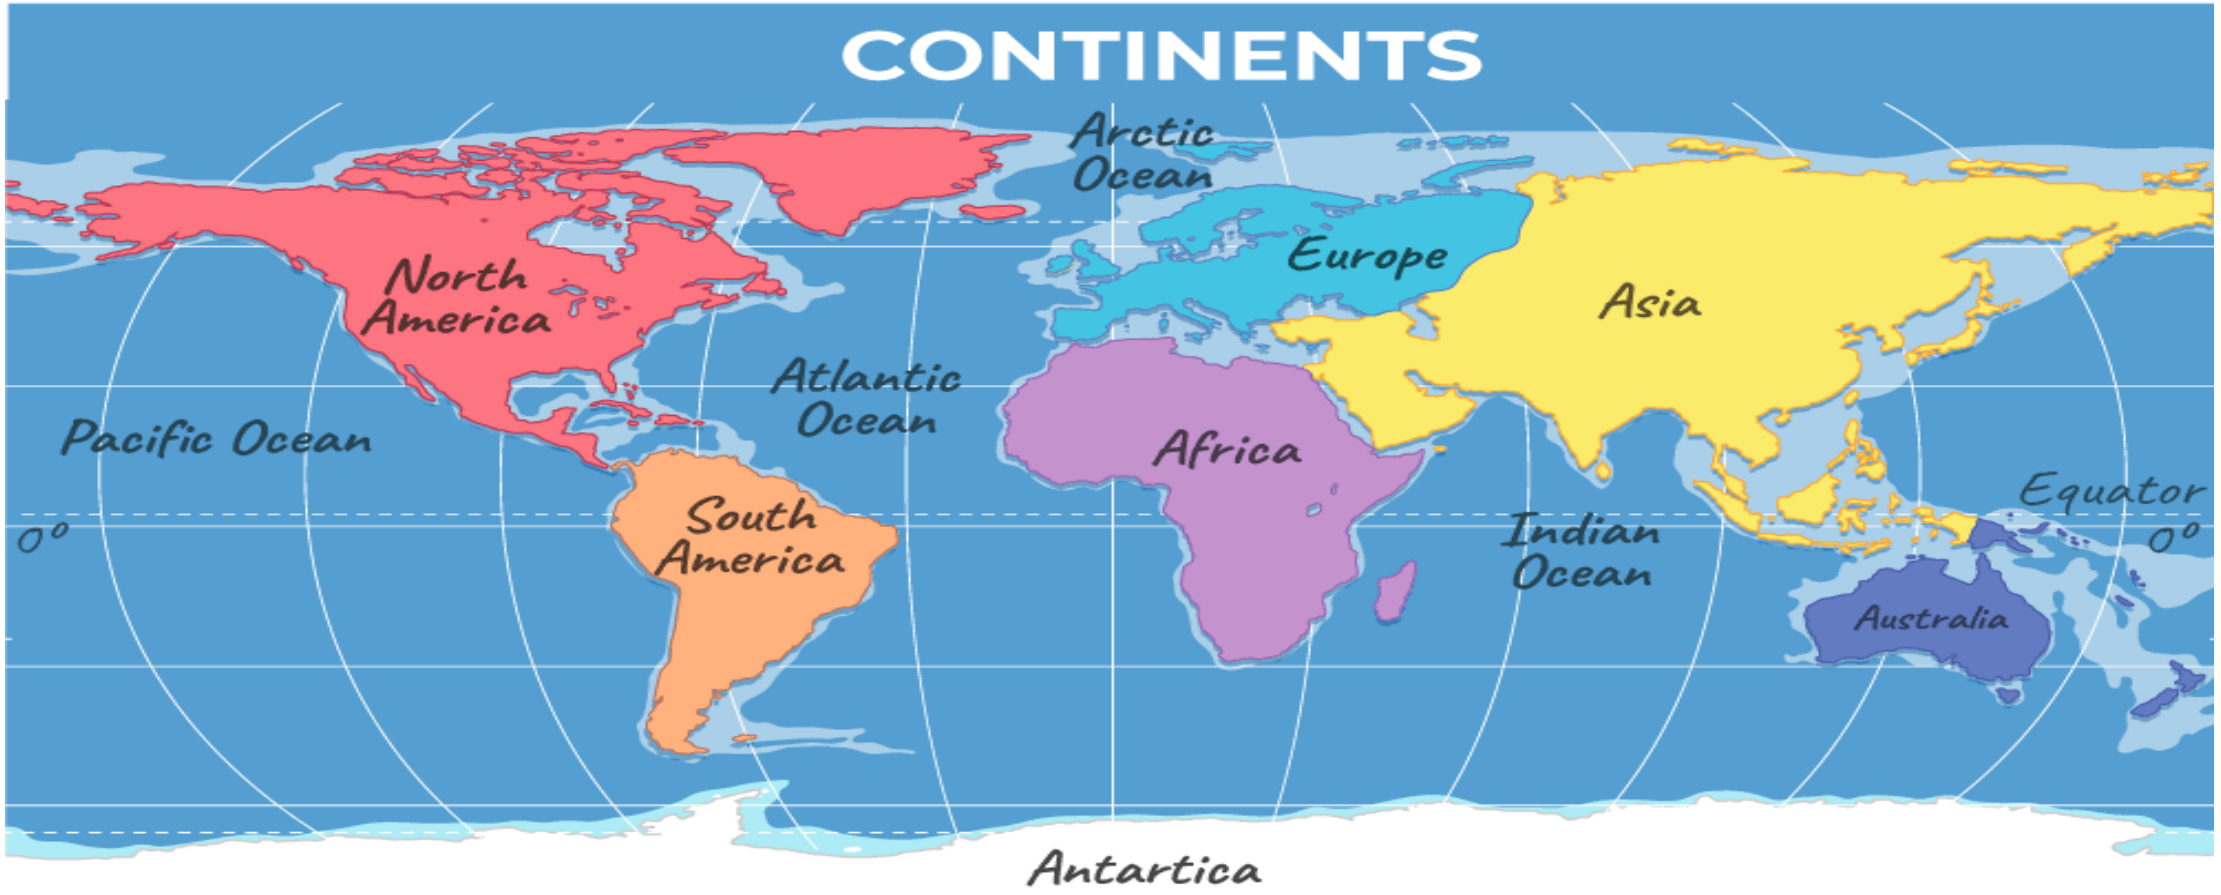
Marsupials develop in their mother’s pouch.

Sydney is the capital of Australia.

Brisbane is another big city in Australia.

Most of the population of Australia live along the coast of the country, because the center part of the country is too hot and dry.

Australia is an island because it is surrounded by water. It is also one of seven continents in the world.



The Australian railroads link the continent and transport people and goods.

The railroads carry freight from Australian ports to the entire country.
